

We The People

[Intro]

*We the people still believe
Freedom's not a gift from a king
It was planted by the hand of God, We say.
And paid for by the blood of our brave*

[Verse 1]

*When the founders signed their names
They were lighting freedom's flame
With a firm reliance on Almighty God
They stood against the chains*

*We the people, We the people, We the people, of the USA
We the people, We the people, We the people, are here to stay
We the people, We the people, We the people, from shore to shore
We the people, forevermore.*

*They declared what heaven knew
That our rights were born as truth
Life and liberty, the right to dream
And the chance to start anew*

[Pre-Chorus]

*Not by power, not by throne – but We the people,
This land was built on faith and hope – of We the people,
With sacred honor, hearts of fire - We the people,
They lifted freedom higher and higher for We the people,*

[Chorus]

We the people, still we stand

We The People

*With the Constitution in our hands
One nation under God above
Defending liberty with love
We the people, hear the call
Justice and freedom for one and all
From sea to shining sea we sing
Let freedom ring, let freedom ring*

[Verse 2]

*From the halls where Lincoln prayed
To the fields where soldiers laid
Every generation had to choose
If freedom would be saved
Don't let We the people lose what we have*

*We the people, We the people, We the people, of the USA.
We the people, We the people, We the people, are here to stay
We the people, We the people, We the people, from shore to shore
We the people, forevermore.*

*Presidents have raised their voice
Telling us we have a choice
To serve, to sacrifice, to keep the dream
And make a righteous noise*

[Pre-Chorus]

*Government of, by, and for - We the people,
The people knocking at the door – Are We the people,
Of history with grateful hands – from We the people,
Saying, "Lord, please bless this land"*

We The People

And Lord please bless We the people too.

[Chorus]

*We the people, still we stand
With the Constitution in our hands
One nation under God above
Defending liberty with love
We the people, hear the call
Justice and freedom for one and all
From sea to shining sea we sing
Let freedom ring, let freedom ring*

[Bridge]

*We hold these truths. We hold them high
Some gave their blood so they would not die
Freedom is fragile, freedom is strong
When the people remember where they belong*

*We the people, We the people, We the people,
That's who we are, that's who we are
We the people, We the people, We the people,
We come from near and far
We the people, oh oooo, that's who we are*

*Not to a crown, not to fear
But to the God who brought us here
With humble hearts and lifted eyes
America, wake up and rise*

We The People

[Final Chorus]

*We the people, still we stand
With the Constitution in our hands
One nation under God above
Defending liberty with love
We the people, hear the call
Justice and mercy for one and all
From sea to shining sea we sing
Let freedom ring, let freedom ring*

[Outro]

*We the people still believe
Freedom's not a gift from kings
It was planted by the hand of God
And paid for by the brave*

*We the people, We the people, We the people, of the USA.
We the people, We the people, We the people, are here to stay
We the people, We the people, We the people, from shore to shore
We the people, forevermore.*

*We the people, Let freedom ring
We the people, Let freedom ring
Let freedom ring*

*Let's all sing
Let freedom ring*
