

# Blessings and Curses

[Intro]

God says, "Blessings and curses  
Life and death before us  
But the heart of God is calling  
My precious Child, "please choose life."

Blessings and curses, please choose life  
I say now, Blessings and curses, please choose life  
You know God truly loves you, please choose life  
You know He never wants to lose you, please choose life  
Blessings and curses, Blessings and curses, please choose life  
Blessings and curses, Blessings and curses, please choose life  
please choose life

[Verse I]

The Lord Your God only wants to bless you  
That is who He is no matter who you are  
He wants to give you good gifts from heaven above  
He wants to heal our broken hearts  
He wants to mend a lonely soul  
He wants you to hear what I say  
please choose life

You shine Your face upon us  
You cover us with peace  
You open up Your mercy Lord  
And You set our captives souls free

You are not waiting  
For a reason to condemn  
You are reaching out in love  
To bring us home again

[Pre-Chorus]

Every good and perfect gift  
Comes from You our Father above  
Every warning that You give to us  
Is wrapped inside Your perfect love

# Blessings and Curses

[Chorus]

Blessings and curses  
Life and death before us  
But the heart of God is calling  
My precious Child, "please choose life."

Blessings and curses, please choose life  
I say now, Blessings and curses, please choose life  
You know God truly loves you, please choose life  
You know He never wants to lose you, please choose life  
Blessings and curses, Blessings and curses, please choose life  
Blessings and curses, Blessings and curses, please choose life  
please choose life

Mercy and judgment  
Darkness and the promise  
But You gave us Your only Son  
To make us forever clean in Your sight

You would rather bless than curse  
You would rather heal than hurt  
You would rather bring us home  
Than watch us lose our way

[Verse 2]

The curse is not Your desire  
It comes when we walk away  
When we sow into the darkness  
We will reap the bitter pain

But even in our wandering  
You do not close the door  
You call us to repentance  
You restore us once more

You take no joy in sorrow  
You take no joy in death  
You breathe Your loving warning  
With every holy breath

# Blessings and Curses

[Pre-Chorus]

You set before us two roads  
One is death and one is life  
And like a Father full of mercy  
You keep calling, choose what's right

He says "please choose life."

[Chorus]

Blessings and curses  
Life and death before us  
But the heart of God is calling  
My precious Child, "please choose life."

Blessings and curses, please choose life  
I say now, Blessings and curses, please choose life  
You know God truly loves you, please choose life  
You know He never wants to lose you, please choose life  
Blessings and curses, Blessings and curses, please choose life  
Blessings and curses, Blessings and curses, please choose life  
please choose life

Mercy and judgment  
Darkness and the promise  
But You gave Your only Son  
To make us clean in Your sight

You would rather bless than curse  
You would rather heal than hurt  
You would rather bring us home  
Than watch us lose our way

Blessings and curses  
Life and death before us  
But the heart of God is calling  
Child, choose life today

[Verse 3]

So Jesus took the curse for us  
And carried all our shame

# Blessings and Curses

The spotless Lamb of heaven  
Paid the price in our name

Now we can come before You  
Washed clean and justified  
No longer lost and guilty  
But blessed in Jesus Christ

The blood has opened up the way  
The veil has been torn through  
Now every heart can turn around  
And come back home to You

[Bridge]

I choose life  
I choose mercy  
I choose the blessing of Your way

I choose grace  
I choose forgiveness  
I choose to hear Your voice today

Break every curse  
Heal every heart  
Let every wandering child come home

Open the heavens  
Pour out Your love  
Let every blessing overflow

[Final Chorus]

Blessings and curses  
Life and death before us  
But the heart of God is calling  
My precious Child, "please choose life."

Blessings and curses, please choose life  
I say now, Blessings and curses, please choose life  
You know God truly loves you, please choose life  
You know He never wants to lose you, please choose life  
Blessings and curses, Blessings and curses, please choose life

# Blessings and Curses

Blessings and curses, Blessings and curses, please choose life  
please choose life

[Outro]

You are a blessing God

Mercy is Your way

The heart of God is calling

Child, choose life today
