

Times are Changing

[Intro Hook]

Times are changing
Changing, changing
But God never changes
His truth stays the same
Times are changing
Changing, changing
Men move the days
But God stays the same

[Verse 1]

Aaron made a golden calf
And called it a feast to the Lord
Nadab and Abihu brought strange fire
Something God had never ordered
Saul would not wait
He crossed the line
Jeroboam chose
Another feast and time
They thought they were doing right
They followed their own way
They changed what God commanded
But God had never changed

[Pre-Chorus]

A little change
A little lie
A little truth
Gets pushed aside
It may look good
It may sound right
But bring it all
Into God's light

[Chorus]

Times are changing
Days rearranging
Truth watered down
And traditions raised
Times are changing
But God remains
The world may change
But God's Word stays the same
God's Word stays the same

Times are Changing

God's Word stays the same
Times are changing
But God's Word stays the same

[Hook]

Who changed the times?
Who changed the days?
Who moved the truth
And called it faith?
Who changed the times?
Who changed the ways?
The world may change
But God stays the same

[Verse 2]

Throughout the ages
Men changed the signs
Men moved the days
And changed the times
The seventh-day Sabbath
Was replaced by Sunday
God's Holy Days
Were slowly pushed away
Traditions of men
Were lifted high
While words of truth
Were pushed aside
Can you defend your beliefs?
Can you show them in God's Word?
Are you following God's way
Or only what you've heard?

[Chorus]

Times are changing
Days rearranging
Truth watered down
And traditions raised
Times are changing
But God remains
The world may change
But God's Word stays the same
God's Word stays the same
God's Word stays the same
Times are changing
But God's Word stays the same

Times are Changing

[Hook]

Who changed the times?
Who changed the days?
Who moved the truth
And called it faith?
Who changed the times?
Who changed the ways?
The world may change
But God stays the same

[Verse 3]

A little compromise
A little at a time
A little human reason
Can slowly change the signs
What starts out as a custom
Can soon be called a law
Then generations follow
Without asking why at all
Wrong can look right
When everyone agrees
But truth is not decided
By what the people please
Open up the Bible
Let God's own Word explain
The world may change the times
But God's truth will remain

[Bridge]

Turn back, turn back
To the old paths
Turn back, turn back
And ask where the good way is
Test every tradition
Test every claim
God never changes
His truth stays the same
Turn back, turn back
Don't follow the crowd
Turn back, turn back
Let God's Word speak loud

[Breakdown]

Times are changing
Anthony James Terranova Jr. ©2026

Times are Changing

People are changing
Customs are changing
The world is rearranging
But the Father does not change
And Jesus is the same
Yesterday, today, forever
His truth will still remain

[Final Chorus]

Times are changing
Days rearranging
Truth watered down
And traditions raised
Times are changing
But God remains
The world may change
But God's Word stays the same
God's Word stays the same
God's Word stays the same
Times are changing
But God's Word stays the same

[Final Hook]

Who changed the times?
Who changed the days?
Who moved the truth
And called it faith?
Search out the truth
Call on His name
The world may change
But God stays the same
Times are changing
Changing, changing
But God never changes
His truth stays the same

[End]
