

In an American Town

[Intro]

From the skyline bright
To the courthouse square
There's a place called home
And my heart is there
From the harbor lights
To the prairie ground
A welcome waits
In an American town

[Verse 1]

There are fields of green
There are city lights
Neighborhood games
On summer nights
There are open doors
And a welcome sound
There is room to live
In an American town

[Pre-Chorus]

We can choose our road
We can make our way
We can build a dream
And live it every day

[Chorus]

In an American town
In an American town
In an American town
The best place around
That's where I live
That's where I stay
That's where I work
That's where I play
With freedom ringing
All around
I'm proud to live
In an American town

[Verse 2]

There are schools and shops
There are parks and teams
There are working hands
Building hometown dreams
There are roads and rails
That can take us far
Wherever we roam
Home is never far

In an American Town

We can choose a trade
We can start again
We can lend a hand
To a neighbor or friend
We can raise a family
And settle down
To make a good life
In an American town

[Jamestown Hook – Sung]

From Jamestown to every town today
Look what we built together in the USA
Town by town and state by state
Freedom gave us room to create

[Pop-Rap I – Major Cities]

New York lights and a Broadway beat
Chicago wind on a lakefront street
Miami sun where the bright waves roll
Boston Harbor with an old-world soul
D.C. monuments, proud and tall
L.A. dreams where the spotlights call

[Melodic Thread – Sung]

From Jamestown to every town today
Look how far we've come in the USA
One flag flying, fifty states strong
Every town is where we belong

[Pop-Rap II – Famous Towns]

Gettysburg fields where history stands
Plymouth remembers where the Mayflower came
Cooperstown keeps the baseball flame
Kitty Hawk taught the sky our name
Branson shows and Aspen snow
Key West sunsets in a golden glow
Dodge City rides where the west winds blow
From a one-stop town to a downtown sound
We're living free in an American town

[Jamestown Tag – Sung]

From Jamestown to every town today
See what we did together in the USA

[Chorus]

In an American town
In an American town
In an American town
The best place around
That's where I live

In an American Town

That's where I stay
That's where I work
That's where I play
With freedom ringing
All around
I'm proud to live
In an American town

[Verse 3]

There are safe, warm homes
Under skies of blue
Clean water flows
And the air feels new
There is food to share
There is help close by
And our flag waves free
In the open sky

There are courts and fields
There are lakes and trails
There are Friday games
And county fairs
There are songs and cheers
When the home team scores
And friends fill the stands
To cheer and roar

[Hook]

My state, my street
My home, my ground
My people, my pride
In an American town
My state, my street
My home, my ground
God gave us freedom
In an American town

[Bridge]

From the first town square
To the skyline glow
Generations built
The land we know
With courage and faith
And hearts unbound
That spirit still lives
In every town

We have liberty
We have room to grow
We can speak our minds

In an American Town

And choose where we go
We can worship God
We can gather round
We can shape tomorrow
In an American town

[Breakdown]

In an American town
Where the brave stand tall
In an American town
There is room for all
In an American town
Hear the freedom sound
This is my home
This is my ground

[Final Chorus]

In an American town
In an American town
In an American town
The best place around
That's where I live
That's where I stay
That's where I work
That's where I play
With freedom ringing
All around
I thank my God
For this American town

[Outro]

From Jamestown
To every town
One nation strong
On common ground
God bless America
Let freedom resound
God bless my city
God bless my town
God bless the people
Who stand on this ground
God bless every
American town

[End]
