

LET'S HAVE FUN

[Verse 1]

The alarm goes off before the morning sun
Another busy day has just begun
Coffee in a cup and keys in our hands
We hit the road and do the best we can
We build it up; we make things run
We do the work that has to be done
But when that whistle blows at five-oh-one
It's time to leave those worries and have some fun

[Pre-Chorus]

Shake off the trouble, leave it behind
There's more to living than the daily grind
Turn up the music, laugh with everyone
Come on, come on—let's have some fun

Have fun, Have fun,
let's have fun. I say now
Have fun, Have fun,
Time to have fun,
Have fun, Have fun,
Everyone
Fun, fun, fun
Let's all have fun

[Chorus]

Let's have fun, let's have fun
We worked all day—now the night has begun
Put your hands in the air, let the good times run
Life's too short, so let's have fun
Let's have fun, let's have fun
We don't need money or a place in the sun
Just a song, some friends, and love for everyone
Come on, everybody—let's have fun

Let's have fun, let's have fun, time for fun for everyone
Let's have fun, let's have fun, find your place in the sun
You wanna really have some fun, go for a bike ride
Or maybe a run

[Verse 2]

Some folks are working with their hands all day
Some teach the children, some pave the way
Some drive the highways, some work from home
Some put in long hours all alone

LET'S HAVE FUN

Everybody's carrying a heavy load
Trying to keep moving down that road
But a smile can shine when the day is done
And a little bit of laughter is good for everyone

[Pre-Chorus]

Shake off the trouble, leave it behind
There's more to living than the daily grind
Turn up the music, laugh with everyone
Come on, come on—let's have some fun

Have fun, Have fun,
let's have fun. I say now
Have fun, Have fun,
Time to have fun,
Have fun, Have fun,
Everyone
Fun, fun, fun
Let's all have fun

[Chorus]

Let's have fun, let's have fun
We worked all day—now the night has begun
Put your hands in the air, let the good times run
Life's too short, so let's have fun
Let's have fun, let's have fun
We don't need money or a place in the sun
Just a song, some friends, and love for everyone
Come on, everybody—let's have fun

Let's have fun, have fun, fun for everyone
Let's have fun, have fun, let's all have fun
Fun, fun, fun, oh ya, let's all have fun

[Post-Chorus Hook]

Clock out, lights on
Worries gone, sing along
Work is over, day is done
Come on, come on—let's have fun

[Verse 3]

Maybe it's a cookout in the neighborhood
Dancing in the kitchen always feels so good
Maybe it's a ball game, maybe it's a ride
Maybe just relaxing with the ones by your side

LET'S HAVE FUN

You don't need a ticket to enjoy your life
You don't need perfection for the moment to be right
Take a deep breath underneath the setting sun
Thank God you're alive—and go have some fun

[Bridge]

We only get one trip around
So lift your feet up off the ground
Clap your hands and make some noise
Celebrate this gift of life with joy
Forget about tomorrow for a little while
Give somebody near you a reason to smile
The world can wait—the night is young
Everybody ready? Let's have fun!

Have fun, Have fun,
let's have fun. I say now
Have fun, Have fun,
Time to have fun,
Have fun, Have fun,
Everyone
Fun, fun, fun
Let's all have fun

[Breakdown]

What are we gonna do?
Have some fun!
Who are we gonna bring?
Everyone!
When are we gonna stop?
When the morning comes!
Come on, come on—let's have fun!

Have fun, Have fun, Have fun, Have fun,
let's have fun. I say now
Have fun, Have fun, Have fun, Have fun,
Time to have fun

[Final Chorus]

Let's have fun, let's have fun
We worked all day—now the night has begun
Put your hands in the air, let the good times run
Life's too short, so let's have fun
Let's have fun, let's have fun
We don't need money or a place in the sun

LET'S HAVE FUN

Just a song, some friends, and love for everyone
Come on, everybody—let's have fun

Fun, fun, fun, Let's all have fun
Fun, fun, fun, great fun for everyone
Fun, fun, fun, let's have fun.

[Final Hook / Outro]

Clock out, lights on
Worries gone, sing along
Work is over, day is done
Come on, come on—let's have fun
Let's have fun!
Oh, let's have fun!
Life's too short—
So let's have fun!

Have fun, Have fun,
let's have fun. I say now
Have fun, Have fun,
Time to have fun,
Have fun, Have fun,
Everyone
Fun, fun, fun
Let's all have fun

I say now go have some fun
