

I LOVE ALL OF YOU

[Intro – Warm and Intimate]

I love all of you
That's the whole truth
All that you are
All that you do
I love all of you

[Verse 1]

You walk in
And the light turns around
Like even the sunshine
Knows what it found
You laugh once
And the whole room lifts
You make an ordinary minute
Feel like a gift
I love the way your eyes grow bright
Before your laughter starts
The way one little touch from you
Can open up my heart
Every day I know you better
Every day my love feels new
There is always more for me to cherish
The miracle that is you

I love all of you, I love all of you, I love all of you,
Not just a little but, I love all of you
I love all of you, I love all of you
You are all I ever want to love. That's why
I am always going to love all of you

[Pre-Chorus]

Come bring me every dream you carry
Lay it gently next to mine
Loving you will be my honor
For as long as there is time

I love all of you, all the way
I love all of you, all I can say
I love all of you, my love is true
That's why I always say
I love all of you, I truly do
I love all of you, yes all of you

[Chorus]

I love all of you
Every look, every laugh
Every dream inside you

I LOVE ALL OF YOU

Every beautiful detail
That makes you, you
I could live a thousand lives
And in everyone choose you
I love all of you
All that you are
All that you do
No word has ever said enough
Forever isn't long enough
To hold the way
I love all of you

[Post-Chorus Hook]

All of you
All of you
Every time
Every way
All of you
All of you
My one forever truth
I love
I love
I love all of you

[Verse 2]

No music ever moved my heart
The way the sound of you can do
You make the morning worth awaking
You make the evening time, our time
The way I touch you every night
When your hand is holding mine
You are not a dream I'm chasing to find you
You are more than a true dreams come true
You are everything that that I could have ever wanted
Don't want just a moment of your time
I only want to love all of you

I love all of you, I love all of you, I love all of you,
Not just a little but, I love all of you
I love all of you, I love all of you
You are all I ever want to love. That's why
I am always going to love all of you

[Pre-Chorus]

Your dreams will always have more sky
Your heart will have a home

I LOVE ALL OF YOU

My arms will always welcome you
As the finest love, I've known

I love all of you, all the way
I love all of you, all I can say
I love all of you, my love is true
That's why I always say
I love all of you, I truly do
I love all of you, yes all of you

[Post-Chorus Hook]

All of you
All of you
Every time
Every way
All of you
All of you
My one forever truth
I love
I love
I love all of you

[Bridge - Expanding and Powerful]

Across a million worlds of light
Through endless days
And silver nights
Every road would lead me through
The whole creation
Back to you
And if forever offered more
A thousand lives
A thousand doors
I'd open every, one and say
I choose you
Every time Every way

The universe may hold the stars
But you are where my heaven starts
The universe may stretch above
But it could never hold this love

[Breakdown - Close and Tender]

No song has ever been sung enough
No heart has ever dreamed enough
No word could say enough how much
I love all of you

I LOVE ALL OF YOU

No moment could be long enough
No lifetime could be full enough
I'll spend forever showing you
I love all of you

[Final Chorus – Full and Soaring]

All of you
All of you
Every time
Every way
All of you
All of you
Today and every day
All of you
All of you
My one forever truth
I love
I love
I love all of you

[Outro – Softly]

The universe can keep its stars
I found my whole world
Where you are
All that I am
All that I do
Will always love
All of you
I love all of you

[End]
