

Give Me Victory

[Instrumental Intro]

[Verse 1]

Give me victory in battle
Help me fight the good fight
Strengthen me, my faithful Father
Through the darkness of the night
When the enemy surrounds me
And temptation calls my name
Let Your Spirit take control, Lord
Fill my heart with Your holy flame

[Chorus]

Give me victory, Give me victory.
When the world is pulling at me
Give me victory, Give me victory.
Let Your truth keep setting me free
When the lies are all around me
By Your power I won't back down
Give me victory in my battles
Lord, don't let me lose my ground
We are victorious, victorious
We are victorious in Him

Give me victory, Give me victory.
Please strengthen my hand
Give me victory, Give me victory.
Please strengthen my heart
Give me victory, my Lord Jesus
Yes, give me victory, my Lord

[Verse 2]

There are battles all around us
There are battles deep within
Battles raging in our thoughts
Battles tempting us to sin
Satan comes with lies and whispers
Trying to turn our hearts away
But Your voice is always stronger
Lead me in the narrow way

[Pre-Chorus]

Help me to be ready
Help me firmly stand

Give Me Victory

Clothe me in Your holy armor
Keep Your sword within my hand

[Chorus]

Give me victory, Give me victory.
When the world is pulling me
Give me victory, Give me victory.
Let Your truth keep setting me free
When the lies are all around me
By Your power I won't back down
Give me victory in battle
Lord, don't let me lose my ground
We are victorious, victorious
We are victorious in Him

Give me victory, Give me victory.
Please strengthen my hand
Give me victory, Give me victory.
Please strengthen my heart
Give me victory, my Lord Jesus
Yes, give me victory, my Lord

[Verse 3]

Every screen demands attention
Every ad says, "Want some more"
Social media seeks to lead us
Farther from Your open door
News and voices shape our thinking
Fear and anger fill the air
Help me test the words before me
And remember You are there

[Verse 4]

Anything that tries to part me
From Your presence and Your love
I will battle, I will turn away from
And set my mind on things above
Not for riches, pride, or power
Not so I can praise my name
I just want to draw much closer
And bring glory to Your name

[Bridge]

The enemy is strong, but You are stronger

Give Me Victory

His darkness cannot overcome Your light
When I am weak, Lord, make me stronger
Stand beside me as I fight
I will not run, I will not surrender
Your holy armor covers me
You have already won the battle
And through You I have victory

[Final Chorus]

Give me victory, Give me victory.
Help me fight for what is right
Give me victory, Give me victory.
Keep me always in Your light
When the world comes hard against me
I will trust and follow You
You have given me the victory
And Your word will lead me through

Give me victory, Give me victory.
Please strengthen my hand
Give me victory, Give me victory.
Please strengthen my heart
Give me victory, my Lord Jesus
Yes, give me victory, my Lord

Give me victory, Give me victory.
So that I can serve You.
