

SOUNDS LIKE A GOOD OLD COUNTRY LOVE SONG

[instrumental intro]

Billy's got her picture on the dash
And her last words on his phone
Half a tank and a hollow heart
Since Jessie left no place feels like home
How did love that felt so right
Ever go so wrong
Every mile of Billy's ride
Sounds like a good old country love song

[Refrain]

Old country love song touching your heart
Old country love song tearing your soul apart
Old country love song honest and true
Sounds like a good old country love song
Singing out to you

[Verse 1]

Billy worked hard all week
And lived for Friday night
He met Jessie on the Fourth of July
Beneath the firework sky
His uncle burned the burgers
Two cousins came to blows
She laughed Your family's crazy
He said Girl you just don't know

They laughed beneath the fireworks
Then much to his surprise
Jessie leaned in close
And kissed Billy goodnight

[Chorus]

Sounds like a good old country love song
A little right a little wrong
A little hold me close all night
A little baby please come home
It touches your heart down to the bone
And stays when you're alone
When two hearts find where they belong
Sounds like a good old country love song

When two hearts want to sing along
Sounds like a good old country love song

[Refrain]

SOUNDS LIKE A GOOD OLD COUNTRY LOVE SONG

Old country love song touching your heart
Old country love song tearing your soul apart
Old country love song honest and true
Sounds like a good old country love song
Singing out to you

[Verse 2]

They lay beneath the stars
In the back of his pickup truck
Talked about a home someday
And thought their love was enough
A white fence around the yard
Little feet and laughter there
But dreams can't keep a flame alive
When only one heart cares

Billy loved those Friday nights
Dirt-track racing with the boys
Jessie grew tired of second place
To the engines and the noise
He came rolling home too late
Found her key beside a note
Love can't stay when it's one way
That was all she wrote before she went away

[Chorus]

Sounds like a good old country love song
A little right a little wrong
A little hold me close all night
A little baby please come home
It touches your heart down to the bone
And stays when you're alone
When two hearts find where they belong
Sounds like a good old country love song

[Verse 3]

His friends came by that Saturday
And rode the trails till dark
They cracked cold beers beside a fire
To cheer his broken heart
When the final joke had faded
His best friend asked him low
If Jessie's all you talk about
Why'd you let her go

[Refrain]

SOUNDS LIKE A GOOD OLD COUNTRY LOVE SONG

Old country love song touching your heart
Old country love song tearing your soul apart
Old country love song honest and true
Sounds like a good old country love song
Singing out to you

Those words rode beside him
Sunday morning to her door
A man who finds a love that true
Should fight for it once more

[Bridge]

He found Jessie on the front steps
No flowers no grand plan
Just sorrow in his voice
And his heart in both his hands
I can't undo the hurt
Or the miles I put you through
But give me one more chance
I'll spend my life showing you

She softly took his hand
Don't sing to me forever
Show me that you can

[Final Chorus]

Sounds like a good old country love song
A little right a little wrong
A little broken into pieces
A little holding on
Love can knock you down and wake you up
Then lead you where you belong
When two hearts find their way back home
Sounds like a good old country love song

Sounds like sounds like
A good old country love song
Billy and Jessie are still rolling on
Living out a good old country love song

[Outro]

Now her picture's on the dash
And she's riding by his side
Mama smiled and Daddy said
Son you finally made things right
Every mile of Billy's ride
Sounds like a good old country love song

SOUNDS LIKE A GOOD OLD COUNTRY LOVE SONG

Sounds like sounds like
A good old country love song

[instrumental outro]

[End]
