

Children of Darkness, Come Into the Light

Children of darkness, Come into the light
There is a darkness which can make you blind
It covers all the earth all the time

Darkness is filling empty hearts
With a fear of pain and suffering
There's a sense of endless longing
Deep within your soul
The kind of darkness that takes control
Children of darkness, come into the light
the light Of Jesus Christ our Lord

come into the light, for something better than what you can see
come into the light, for something greater than you can be
come into the light, to something greater that you can know
come into the light, Jesus will help you to grow
come into the light, that way, is the only way you can go

Come into the light, the light of Jesus Christ
He is the way the truth and the life
Children of darkness, you can win the fight in store
Children of darkness come into the glorious light of our Lord

Children of darkness, come into the light
Children of darkness, you can be in the light
Look to your Savior Jesus Christ while there's still time
Children of darkness, come into the light

Children of darkness, come into the light
Children of darkness, come into the light
Of our lord Jesus Christ
Come into the light, come into the light
Children of darkness, come into the light of our lord Jesus Christ

The darkness envelops all around you In an attempt to blind you
The darkness will take over your heart before you know
The darkness can control all that you do
Children of darkness don't let the dark take over you
God said let there be light and darkness was overcome
Jesus said He is the light that will illuminate your way
it's like you're in a long dark tunnel that seems to have no end
with many twists and turns and ups and downs
the darkness covers you all around
Jesus will show you the light at the end of the tunnel

Children of Darkness, Come Into the Light

Jesus will help you overcome and come into His glorious light

Children of darkness, come into the light
Children of darkness, come into the light

come into the light, for a better life
come into the light, you will now know, right from wrong
come into the light, Jesus will help you to go
come into the light, darkness cannot hold you any more
come into the light, Jesus is the door
Jesus is the door you've been looking for
Children of darkness, come into the light

Come into the light, the light of Jesus Christ
He is the way the truth and the life
Children of darkness, you can win the fight in store
Come into the light, the glorious light of our Lord

Children of darkness, come into the light
Children of darkness, come into the light
Children of darkness, come into the light
Of our lord Jesus Christ

Children of darkness, come into the light
Children of darkness, you can live in the light
Look to your Savior while there is time
Children of darkness, come into the light
Children of darkness, become children of light

Opportunity knocks, open that door
And let the Son of God walk in
Children of darkness, open that door
And you won't be in darkness anymore

Come into the light, the light of Jesus Christ
He is the way the truth and the life
Children of darkness, you can win the fight in store
Come into the light, the glorious light of our Lord

Children of darkness, come into the light
Come into the light, come into the light
Children of darkness, come into the light
Children of darkness, come into the light

Children of Darkness, Come Into the Light

It hurt God the Father to the core
Lucifer was His friend, but not anymore
He was the bringer of light
He was the singer of worship songs
He was one to be adored, then
He was against the Most Hight God

The battel was set one third followed Him
Rebelling against the Most High One
God said one word and the battel was won
Satan lost and God won

He was cast down to earth with a loud horn
That's when the prince of darkness
Satan the devil was born

Children of darkness, come into the light
Don't let Satan take hold your life
Don't let Satan take control of your life

Come into the light, the light of Jesus Christ
He is the way the truth and the life
Children of darkness, you can win the fight
come into the glorious light of our Lord Jesus Christ
Children of darkness, come into the light
