

I Love You God

[Verse 1]

I've never seen You face to face
Never felt Your arms around me
Still, I know You're real
You meet me where I break
Even unseen, God
I still love You, God
With all of my heart
With all of my soul
Hold my life, God
I know You're there
I know You know me too

[Chorus]

I love You, God, with all my heart
I love You, God, with all my soul
I love You, God; You knew me first
I love You, God, before I had words

[Refrain]

I love You, God, I love You, God
I love You, God, oh God
With all my heart
When fear comes in and I can't breathe
I hear You close: "I'm still here with you"
I'm thankful, God, for how You stay
I love You, God, because You're near

[Bridge]

Oh God, I love You
Oh God, I need You
Oh God, I love You
I need You, God
You loved me first

[Verse 2]

When everything falls off track
You stay with me, you bring me back
You steady my hands
You quiet my mind
You pull my life into line
I love You because of Your Son, Christ

I Love You God

You gave Him up; He gave His life
Then raised Him up
And raised me too

I love You, God
I love You, Jesus, too

[Pre-Chorus]

When I feel sad, I love You, God
When life is hard, I love You, God
When I feel alone, I love You, God
I know I'm Yours, I know You hold me

[Hook]

I love You, God, because You loved me first
I love You, God; You loved me before my first breath
I love You, God, more than I can say

[Verse 3]

The Father and Jesus Christ live in me
Day by day, they lead me patiently
Yes, they love me
I know they do
I love You, God, because You show me through
I love You, God, I just want You to know
I love You, God, because You love me
I love You, God, more than I can say
I love You, God, a little more each day

[Bridge 2]

Give me, God, a loyal heart
A humble, honest heart for You
Help me seek You every day
And not keep drifting away
You made us all
You call us to love
Turn my heart back to You
Make it true

[Verse 4]

When I'm sad and worn out
Sitting at home alone
I know You're with me
You never leave me on my own

I Love You God

Your Spirit lives in me
And gives me strength
Whatever comes
You help me stay
You're always with me
That part stays the same
When I pray and open Your Word to read
God the Father and Jesus Christ
You are my friends indeed
You never promised
A life without sorrow
But You promised to stay
And meet me tomorrow
I love You, God
Because Your love is true
I love You, God
And I love You, Jesus, too
[Chorus]
I love You, God, with all my heart
I love You, God, with all my soul
I love You, God; You knew me from my birth
I love You, God, because You loved me first

[instrumental]

[FADE TO END]
