

God Is

[Intro]

God is love, God is love, God loves you
God is life, God is life, God gives eternal life to you
God is the reason I am alive
God was, God is, God always will be
From everlasting to eternity

[Verse 1]

Before the stars began to shine
Before the earth was formed in time
Before the oceans touched the sand
The great I AM had made His plan

No one created God above
He is the source of life and love
From everlasting He has been
And He will reign beyond the end

[Pre-Chorus]

He has no beginning
He will never cease
The Author of creation
The source of life and peace

[Chorus]

God is, God was
God always will be
The One who was before all things
And rules eternally
God is truth, God is love
The reason all things live
Every star and every breath
Exist because God is

[Hook]

God is love, God is love, God loves you
God is life, God is life, God gives eternal life to you
God was, God is, God always will be
From everlasting to eternity

God Is

[Verse 2]

He spoke, and light broke through the night
He placed the stars and gave them light
By Jesus Christ, His living Word
The Father's great command was heard

The Word was there before the earth
Before He came through human birth
Together They prepared the way
To bring us into endless day

[Chorus]

God is, God was
God always will be
The One who was before all things
And rules eternally
God is truth, God is love
The reason all things live
Every star and every breath
Exist because God is

[Bridge]

When nations rise and kingdoms fall
The living God remains through all
The world may change, the years may fly
But God will never fade or die

He is the Rock beneath our feet
His purpose never knows defeat
What He has promised will be done
Through God the Father and His Son

[Final Chorus]

God is, God was
God always will be
The One who holds tomorrow
And reigns eternally

God Is

God is hope, God is life
The answer that we seek
Let all creation raise its voice
And praise the God who is

[Hook]

God is love, God is love, God loves you
God is life, God is life, God gives eternal life to you
God is the reason I am alive
God was, God is, God always will be
From everlasting to eternity

[Outro]

God is
God was
God always will be
And of His Kingdom
There will be no end
