

Tropical Paradise

Life is too short, days are too long.
Time keeps on passing, gotta move on
Walls closing in, runnin' outa space.
Show me the way to get out of this place.

I just wanna be in a
Tropical Paradise
I just wanna live where Life is so clean.
I just wanna live in a
Tropical Paradise
Float along with me on a Tropical Stream

Tropical dreams on virgin shores
South Sea horizons evermore
In a tropical paradise

Relax by a palm tree in a coconut grove.
Sipping a cool drink while trade winds blow,
In a tropical paradise.

Show me the way to get out of this place.

Tropical—tropical—paradise (paradise)
Let it wash over me; let it feel so nice.
Tropical—tropical—paradise (paradise)

I just wanna be in a
Tropical Paradise
I just wanna live where Life is so clean.
I just wanna live in a
Tropical Paradise
Float along with me on a
Tropical Stream

Float along with me on that tropical stream.
Dolphins are dancin' to a sandpiper's tune.
Reflections of moonbeams across the lagoon
Amazing oasis beyond compare.

Tropical—tropical—paradise (paradise)
Let it wash over me; let it feel so nice.
Tropical—tropical—paradise (paradise)

Tropical Paradise

God's Great bounty, gotta get there.
In this old world I'm just a face in the crowd
Trying real hard to claw my way out
On the road to nowhere you never get home
No time to waste, now gotta get going.'

I just wanna be in a
Tropical Paradise
I just wanna live where Life is so clean.
I just wanna live in a
Tropical Paradise
Float along with me on a
Tropical Stream
in this tropical dream.
Float along with me on that tropical stream.

Tropical—tropical—paradise (paradise)
Let it wash over me; let it feel so nice.
Tropical—tropical—paradise (paradise)

Barefoot on the boardwalk, lanterns in the night
Ukulele heartbeats, everything feels right.
Fresh cut pineapple, coconut, and lime
Every little moment feels like borrowed time.

No more clock on the wall, no more race to run.
Just a simple kind of peace underneath the sun
If You open that door, I'm stepping through the scene.
Let the tide roll in and carry me.

I just wanna be in a
Tropical Paradise
I just wanna live where Life is so clean.
I just wanna live in a
Tropical Paradise
Float along with me on a
Tropical Stream
in this tropical dream.

Tropical—tropical—paradise (paradise)
Let it wash over me; let it feel so nice.
Tropical—tropical—paradise (paradise)
Float along with me on that tropical stream.
