

Make Time for God

[Verse 1]

In the daily grind
Seems like you're working all
the time
You worry about your family
You worry about the news
Every moment of every day
Seems like it never goes
away

Your world is filled with
hardship and pain
When you throw up your
hand and say that you are done
You gotta turn your life around
And make time for God

[Pre-Chorus]

Before the world takes all your time
Before your worries fill your mind
Give Him the first and not what's left
Make time for God today

[Chorus]

Make time for God every day
When you start your day
Open up your heart and ask Him
to stay
Make time for God and He
will help you
Make time for God and He will make time
for you

[Hook]

Make time for God — make time for God
Make time for God — make time for God
Make time for God and He will make
time for you

[Verse 2]

Make Time for God

Wake up each day and you
get on your way throughout the
week, thinking of God every day
You turn on the news as
you drink your coffee
Paying too much attention
to everything that will never set your
heart free

You jump in your car, you
get on the road
Every day you carry a heavy
load
As problems hit you one by one
You still don't make time for God

[Response Hook]

Make time for God — He will help you
Make time for God — He will heal you
Make time for God — He will know you
Make time for God — He will love you

[Pre-Chorus]

Before the world takes all your time
Before your worries fill your mind
Give Him the first and not what's left
Make time for God today

[Chorus]

Make time for God every day
When you start your day
Open up your heart and ask Him
to stay
Make time for God and He
will help you
Make time for God and He will make time
for you

[Hook]

Make time for God — make time for God
Make time for God — make time for God

Make Time for God

Make time for God and He will make
time for you

[Verse 3]

All your life He's been ready
to stand by your side
At times you go up and down
All you want to do is hide
There's a hard day coming
You will want God by your side

There has never been a time
like what is coming
Before all the hard times hit you
Before the whole world is done
You all have to
make time for God

[Bridge]

He gave you every breath you breathe
Every hour, every day
He never turns His heart from you
So don't turn yours away
In the morning, in the evening
In the silence, when you pray
Make time for God
Make time for God
Make time for God today

[New Main Hook]

Make time for the One who made you
Make time for the One who saved you
Make time for the One who loves you
Make time for God today

Make time for God — learn His way
Make time for God — every day
Make time for God — ask Him to show
you what to do
Make time for God — He will make
time for you

[Final Chorus]

Make Time for God

Make time for God every day
When you start your day
Open up your heart and ask Him
to stay
Make time for God and He
will help you
Make time for God and He will make time
for you

[Final Hook / Outro]

Make time for God — make time for God
Make time for God — make time for God
Make time for the One who made you
Make time for the One who saved you
Make time for the One who loves you
Make time for God today

Make time for God
And He will make time for you
